

THE MULTIMEDIA TELEPHONE TS 2200 SIDETOUCH WITH THE SPECTRONIC CALCULATOR APP.

The Spectronic MTM Calculator Application Module

The Spectronic MTM Calculator Application gives to the Sidetouch user a calculator with the 4 rules of arithmetic.

This program is a member of Spectronic MTM software suite, and is currently running within the Spectronic Sidetouch multimedia terminal. The program can be ported to any platform for mobile handheld equipments.

SPECTRONIC

Since 30 years SPECTRONIC is having a leading position within research, development and production of wireless communication. The companys technical solutions can be found in products from ERICSSON and SIEMENS among many others. SPECTRONIC introduced the first cellular data terminal in the world already in 1992.
